

BOARD OF PROFESSIONAL ENGINEERS
AND PROFESSIONAL LAND SURVEYORS

Minutes of Meeting

The Board of Professional Engineers and Professional Land Surveyors held a regular meeting on June 8, 9 & 10, 2006 at the Statehouse Inn, 981 Grove St., Boise, Idaho, to conduct Board business. The meeting convened at 1:00 p.m. on Thursday, June 8, 2006 with the following Board members present: Gary L. Young, Scott McClure, James H. Milligan, John Howe and William J. Ancell. Also present was David L. Curtis, Executive Director, and Jennifer Rowe, Administrative Assistant.

III. UNFINISHED BUSINESS

William Lillibridge and John Bilderback from the Dept. of Agriculture joined the meeting. Attorney Angela Richards and Attorney Woody Richards joined the meeting.

5. Engineers at the Dept. of Agriculture met with the Board to discuss various aspects of the One Plan software. The Board discussed the various scenarios presented by Mr. Lillibridge and Mr. Bilderback in regards to responsible charge and provided their opinions.
 - Responsible Charge Scenario I – inadequate oversight for responsible charge.
 - Responsible Charge Scenario II – adequate to provide responsible charge.
 - Responsible Charge Scenario III – adequate to provide responsible charge.
 - Responsible Charge Scenario IV – there is no exemption from licensure for state employees.
 - Responsible Charge Scenario V – Title 54 Chapter 12 requires that engineering be done by engineers, but statutes and code typically allow discretion of the “Authority Having Jurisdiction”, in this case, ISDA, as to when project plans must be prepared by a PE. Idaho Administrative Rules only require liquid waste systems be designed by a PE. Neither Idaho Code enforced by ISDA nor Administrative Rules administered by ISDA require that a PE prepare the type of plans referenced, so the issue is not clear. The Board would likely not seek discipline against an ISDA employed engineer reviewing and commenting on such plans prepared by an unlicensed person.
 - Responsible Charge VI – If NRCS rules require the barn be designed by a PE or NRCS employee, a later analysis of the existing facility by a PE will not satisfy that requirement. A PE could render an opinion as to the adequacy of an existing design, but that does not make him or her the “designer”, and so long as that PE

does not seal, sign and date the plans, we see no violation based on the limited information presented.

Moved by Mr. Milligan, seconded by Mr. Young to authorize the Chair to send a letter summarizing the above responses to the scenarios posed by Mr. Lillibridge and Mr. Bilderback . Motion passed unanimously.

Moved by Mr. Howe, seconded by Mr. Young to authorize staff and counsel to conduct an inquiry into the background of the situations presented by Mr. Lillibridge and Mr. Bilderback related to the performance of work by unlicensed persons employed by ISCC and IASCD. Motion passed unanimously.

The Board exited executive session.

Moved by Mr. Young, seconded by Mr. Howe to authorize staff to send a letter to Mr. Barreras informing him that an evaluation of his transcripts indicates a total of 23 semester credit hours of college level academic education, 8 of which are surveying. Therefore, he would still need an additional 37 credits, 7 of which must be in surveying, to meet the educational requirements. Motion passed unanimously.
